Business and personalised Christmas Cards for Cancer Research UK

A message from our
Director of Fundraising
Richard C Taylor

Dear Supporter,

I am delighted that you have chosen to look at our new range of Cancer Research UK personalised cards for the festive season 2009.

Cancer Research UK is the world's leading charity dedicated to beating cancer through research.

More people are beating cancer today than ever before and our work has been at the heart of that progress. But one in three of us will still get cancer at some point in our lives. By supporting us you can help ensure that millions more people will survive in the future.

By choosing to send a Cancer Research UK card this Christmas you are helping us get closer to our vision: **Together we will beat cancer.** The proceeds from each sale will go towards our life-saving work, your support really does make a difference.

Thank you so much for your kind interest in Cancer Research UK and for any support you are able to give. I wish you a very happy festive season.

Richard Taylor

Cancer Research UK

About cancer

Thanks to advances in cancer research and improvements in cancer care more people are beating cancer than ever before. In fact, in the last thirty years survival rates have doubled. But cancer continues to impact the lives of millions of families in the UK. Every year over 285,000 are diagnosed with the disease and more than one in three of us will get cancer at some point in our lives.

About Cancer Research UK

Cancer Research UK is the world's leading independent organisation dedicated to cancer research. Our groundbreaking work into the prevention, diagnosis and treatment of cancer has already saved millions of lives across the world and we are committed to saving many more.

We fund over 4,500 researchers, doctors and nurses based in hospitals, institutes and universities around the UK – 90% of the population lives within a 30 mile radius of a Cancer Research UK funded site.

Our scientists are at the forefront of cancer science and new treatment discovery. We support over 100 clinical trials in the UK, testing exciting new drugs and treatments for cancer. Cancer Research UK has contributed to 19 of the top 20 drugs used to treat cancer.

Our work is funded entirely by the public – without the generosity and dedication of our supporters we would not be able to continue making progress against cancer.

How you can help

Shop with us to beat cancer

By purchasing your company's festive greetings cards from this brochure or shopping for gifts from our online shop www.shoptobeatcancer.org.uk you really can make a big difference to our work. The proceeds from each sale will go towards our life-saving work.

Fundraising

Fundraising can be fun and a great way to help build strong teams. Whether you want to host your own fundraising event, or encourage your staff to join in one of ours, such as your local Race for Life or Run 10k, we have everything you need to inspire and support your company to get involved. If you have an idea for a commercial partnership we'd love to hear from you too.

Payroll Giving

Payroll Giving is a simple and tax efficient scheme that allows your employees to regularly donate to charity directly from their salary. Whatever the size of your business, Payroll Giving is quick and easy to put in place, requiring minimal cost or administrative resource. Ask us for more information on how to set up and promote Payroll Giving in your company.

Cash donations or gifts in kind

Of course we warmly welcome cash donations but we are also very happy to receive gifts in kind. For example we always need good quality stock to sell in our charity shops. Please get in touch if you can offer us a donation of any amount or a gift in kind, both can help fund our vision: Together we will beat cancer.

For more information on any of the above or to make a donation,
please phone: **020 7121 6699**
email us at: corp@cancer.org.uk
